

COMPLETE TRANSMITTER

To the man who makes smart use of his money, the NTX-30 has special appeal. For in addition to being a complete transmitter in itself, it provides an ideal exciter and buffer for a more powerful station. Yet when used by itself, it is everything that a low power transmitter should be. It gives its 30 watts of output *generously*. It is lightning fast in operation, with multiple crystal holders and push-button exciter control for selecting four bands. Its frequency is stable and its note is clean.

To the man who makes smart use of his money, the price is right, too. Only \$117.00 Net, complete with all coils, tubes and crystal holder, but without crystals or key.

OFFICIAL PROGRAM

CENTRAL DIVISION CONVENTION

AMERICAN RADIO RELAY LEAGUE

SEPTEMBER 28, 29, 1940
